# IT Risk Management Solution

## IT Risk Management that makes sense

CoreStream GRC's intuitive platform ensures your organization is equipped to **handle IT dependencies, cyber threats, and operational uncertainties.**

Whether risks stem from internal processes, system failures, or external events, our solution aligns with your unique frameworks and processes, providing a **seamless, tailored approach** to IT risk management. Don't let ineffective tools slow you down - empower your team with CoreStream GRC.

## Trusted by companies around the world

**NHS**   **Deloitte.**   **BBC**   **pwc**   **FORTUNE 500**   **UNIVERSITY OF CAMBRIDGE**   **GWR**

## CoreStream GRC's IT Risk Management solution includes:

Integration with frameworks like NIST, COSO, COBIT, FAIR

Continuous, real-time monitoring of critical IT assets

Linking threats to external libraries via APIs

Seamless integration with security tools (vulnerability assessments, perimeter security)

Integration of controls directly into risk assessments

Dynamic dashboards for detecting shifts in risk indicators

Alignment with key regulatory standards, including EU DORA

Flexible reporting for data-driven insights and trend analysis

"CoreStream GRC provided an adaptable and reliable solution that transformed our processes and reduced costs.

**They are a trusted partner for all technology initiatives.**"

**BBC**

## Intuitive tailored IT risk management is here

Unlike rigid, one-size-fits-all solutions, CoreStream GRC's IT Risk Management platform adapts to your approach, giving you **full control over how you assess IT risks**. Whether structuring risks by business processes, assets, systems, or industry standards, or linking threats to external libraries via APIs, CoreStream GRC flexes to fit your needs.

CoreStream GRC **goes beyond simple risk identification; it connects risk assessments to real-world impact.** Whether analyzing financial losses, system downtimes, or resilience, the platform provides a structured approach to understanding consequences.

CoreStream GRC enables **continuous, real-time monitoring**, integrating seamlessly with a wide range of security tools, including **vulnerability assessments, perimeter security, and availability tools**, enabling organizations to track risk in relation to critical IT assets.

### Align your tech, threats, and controls with one risk platform
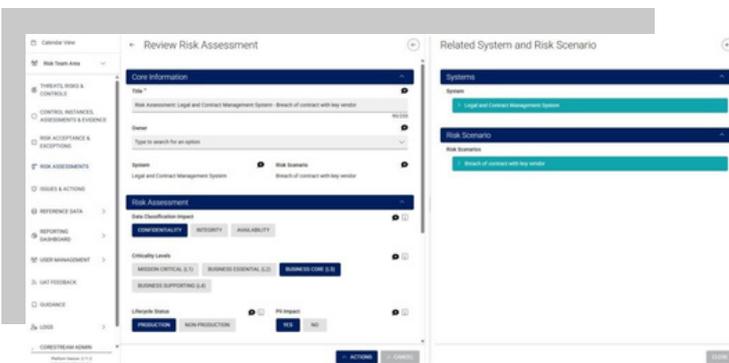

## "Game changing GRC technology"

Rapid speed of deployment, so you're up and running in weeks not months

Fully-featured, workflow-enabled action tracking available with flexible, customizable reporting

Reduction in uncertainty enabling an organization to focus on achieving its objectives and acting with integrity.
